Dear Harold;

Thanks for your last letter and carbons, I hope Tip O'Neil reads them and acts. It seems that the committee is really screwed up. Did you see Dick Sprague on Who's Who. I thought he came off pretty well. It seems to me that they really have Ray in a spot. Nothing has happened with him since their talks in prison and all the publicity.

Enclosed is Penn Jones latest. He has been on s couple of talk shows. I think he is sincer but gets off the beam. Also caught a TV out here with a local investigative reporter, Jim Horwitz who just had been in D.C. and had much praise for the committee and what he thought they would be doing. Have you heard of him.. He seemed to be full of diinformation. I taped the audio if you want it. My best to Lil and Jim.

Best,

Paul
